## Hunting 2020-21

The 3<sup>rd</sup> North West Goose Season, hunting this year has been really, good. Most of the geese being taken after 10 AM in the morning even some as late as noon. It does not seem to make much difference if it windy and raining or clear blue sky. Fact, when they stage in the Browning unit North of us it can really get good. I will have to say that on foggy morning it has been the best. But any day works. Need to grab you shotgun and head on down to the club for a goose hunt. We still have 10 more day's so get out and try your luck.
