SPRING INTO SUMMER

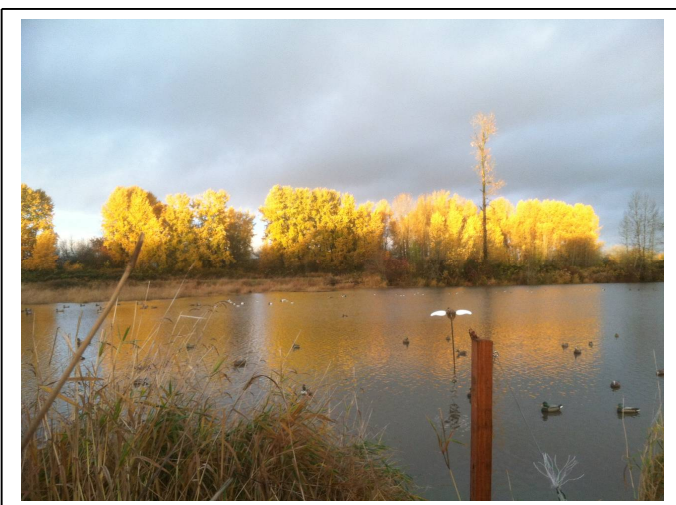

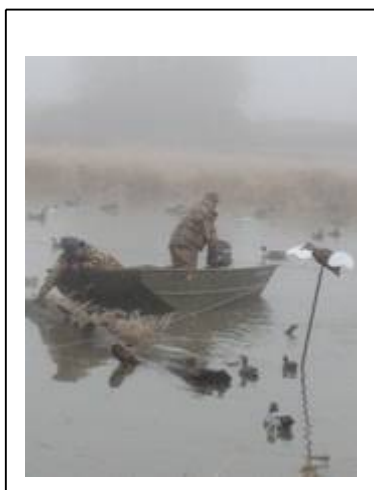

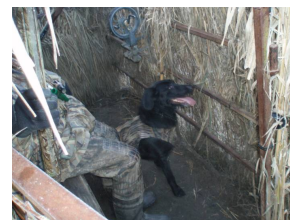

If the rain ever quits, we will be starting some of the summer project at the club. Terry Martin is heading up the decoy group. Travis and Heath are working on the replacement of the irrigation equipment at the pump house. Greg Layton and Matt Blue are working on removing the Milfoil weed from the front lake. Dale Mazar oversees rehabbing the front lake blinds. Martin Hudson and Chris Hickey are interviewing new shooting members. Thanks to their effort we have

signed up two new members. As the weather gets better, probably around June we will have assigned work party dates that I will publish in the newsletter. We will also have opportunities for individuals to come and work on project. Coming out and working with fellow member during the summer keep's the camaraderie in the club.
