Volume 15, Issue 1

The Duck and Goose Season.

Well as things go this duck season was the slowest, I've seen in the last 20 years. Some think because of the warmer temperatures the birds have not migrate at the normal rate and as they have moved south, they don't have to look for food because of the temperature so they stay put. Even as they move down, they just spread out and sit. Accordingly, the flocks are not formed up and moving. The days we have done well shooting birds it's been because of the high winds at the cost blowing birds into the

area. With just a few weeks left in the season we can only hope that it gets a lot colder. On the brighter side we have been having some great lunches provide by members of the club. A big thank you to those providers. **Terry Martin will be having a Vets Only Duck&Goose hunt at the club from 6:54 AM till Noon. Jan 3. 2024.**
