Volume 16, Issue 9

Just a few More Weeks

Just a few more weeks till the opening of the Duck season. We will be having a work party on the fourth of October to make ready for the season as well as some final items that did not get completed last work party.

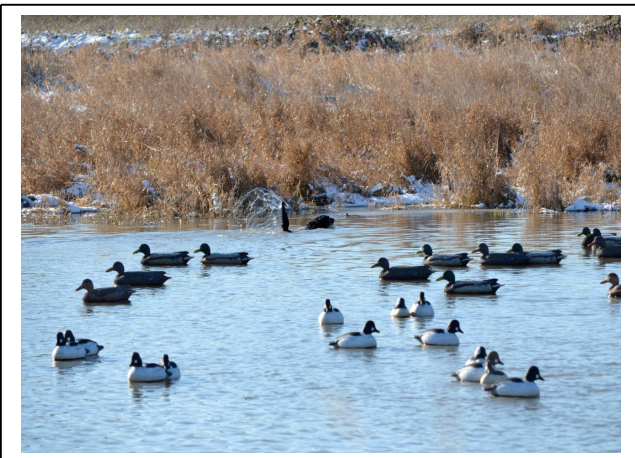

The reports from Duck Unlimited and the Feds looks like the duck population for most species has improved slightly. All we need now is the weather to cooperate. We will be setting out decoys on Saturday October 4, starting at 9AM. Terry and his crew has done a great job of fixing

and setting up decoy bags which should make things easier as far as setting out. Hope to see all hands out for this work party. The more people out the easier it is on everybody. Like in the past we need to meet in the club house before we start the work, so everybody is on the same page. Please show up on time. We have finally started to dike repair on the South dike. It should be done this week.
